SUMMARY

I am a passionate software engineer with over **3+** years of industry experience in designing, developing, and deploying websites that are both aesthetically pleasing and functionally robust, ensuring a seamless and dynamic user experience. I am proficient in technologies such as HTML, CSS, JavaScript, **React.js, Next.js and Tailwind CSS**, and I am committed to leveraging these skills to build responsive and efficient applications. My passion for problem-solving has driven me to tackle over 600 coding questions in JavaScript DSA, and I've achieved proficiency in JavaScript through various HackerRank challenges.

As I seek a position within an innovative organization, I am eager to expand my technical skills and contribute to groundbreaking projects. I thrive in environments that challenge the status quo and provide opportunities for continuous learning and growth. I am excited to join a team that pursues excellence, where I can contribute to the development of cutting-edge solutions that push the boundaries of technology and creativity, ensuring both personal satisfaction and substantial growth for the organization.

EXPERIENCE

React Developer, Global Grand Gaming Pvt Ltd ⧉
Jun 2024 – Present
Bengaluru, Karnataka

- **Fantasy Cricket** is an exciting strategy game where you can create your own team and win real prizes if your team wins. You can choose players from both teams to create the best team of 11 players, and you will earn points according to the actual scores of your players. On the basis of the points you score, you win prizes and cash.
- Designed and developed web applications using **HTML**, **CSS**, **NPM**, **JavaScript**, **TailwindCSS**, and **ReactJS** with **Redux**, ensuring **cross-browser compatibility** and **responsiveness**.
- Created React JS components and containers for grid view, card view, date picker, accordion, and other custom views.
- I made a **single-page application** using **ReactJS**, **Tailwindcss**, *Flowbite React*,**React Data Grid, MUI**, and **shadcn UI** .
- Redux framework as a core dependency, ensuring efficient state management.
- Consumed RESTful web services for data transmission, utilizing JSON for efficient communication between the frontend and backend.
- I utilized JIRA for tracking and managing projects.

Frontend Developer, Mypustak.com ⧉
Aug 2022 – May 2024
Kolkata, West Bengal

- MyPustak.com is a product-based company that focuses on selling new and used books. It also allows you to donate your beloved books, and donated books are available for free.
- Managed a high-performance customer-facing e-commerce application using **ReactJS**, **Next.js**(**App Router**), **Redux Thunk**, **Redux Toolkit,** React Hooks, React Router, **JavaScript**, HTML5, CSS3, Bootstrap 5, **Tailwind CSS**, and **TypeScript**.
- Responsible to applicationarchitecture designing and overall project management.
- Led a dynamic team in developing a cutting-edge web application using React.js,Next.js, facilitating seamless access to crane services for customers. Engineered intuitive user interfaces and optimized performance to enhance user experience, resulting in increased client engagement and satisfaction.
- Focused on responsive web design principles to ensure the application is accessible and user friendly on various devices and screen sizes

- I utilized Git for version control and Trello for tracking and managing projects.

Education

Master of Computer Applications,
Indira Gandhi National Open University

Jul 2024 – present
Patna, India

Bachelor Of Computer Application, Magadh University Bodhgaya

Aug 2019 – Aug 2022
Gaya, India

Skills

HTML5, CSS3, JavaScript, React Js, Next.js, Redux-toolkit, Tailwind CSS, Bootstrap 5, Rest Api, MUI, Node.Js, Express.Js, MongoDB, Git, C programming, DSA, Responsive Web Design

Courses

Full Stack Web Development (MERN), Prepbytes Link ⧉

Mar 2023 – Nov 2023
Gurugram (Haryana), India

Internship

Mobile App Development, Brikbond Shopping App

Feb 2022 – Apr 2022

Tech Stack : Java, XML , Firebase Realtime Database, Firebase Firestore, OTP Verification with Firebase Authentication ,Razorpay payment gateway integration etc
